### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious the recited combination including definition of an interval between first line and first coplanar ground conductors, S, as less than one half of the distance, H, between the first line and second coplanar ground conductors in a specific wiring board environment. U.S. Patents 6,726,488 and 6,700,789 to Shirasaki disclose high-frequency wiring boards but lack this critical feature. U.S. Patent 6,483,714 to Kabumoto et al presents a multilayered wiring board but does not arrange line and ground conductors in the claimed pattern.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick G. Wamsley whose telephone number is (571) 272-1814. The official facsimile number is (703) 872-9306.
